10. Soil and Groundwater Assessment:

Has the Region of Durham's Site Screening Questionnaire, which is attached to this application, been completed for this site, and submitted with your application?

Yes No

Has the Phase 1 or Phase 2 Environmental Site Assessment (ESA), Remedial Work Plan (RWP) or Record of Site Condition (RSC) in accordance with the Ministry of the Environment, Conservation and Parks Guideline been completed and provided for this site?

Yes No

11. Woodlots / Woodlands:

Does the subject property contain one or more woodlots as defined below?

Yes No

For the purposes of defining a woodlot, the diameter of a tree is measured at a point which is 1.4 metres (4.5 feet) above the highest point of the undisturbed ground at the base of the tree. With that in mind, a "woodlot" is defined as any area which has a minimum of:

- (a) 1,000 trees per hectare (400 trees/acre) of any size;
- (b) 750 trees per hectare (300 trees/acre) which measure more than 5 centimetres (2 inches) in diameter;
- (c) 500 trees per hectare (200 trees/acre) which measure more than 12.5 centimetres (5 inches) in diameter; or
- (d) 250 trees per hectare (100 trees/acre) which measure more than 20 centimetres (8 inches) in diameter.

For further information on "woodlots", refer to the Regional Municipality of Durham's Tree Conservation By-law 148-91 and any amendments thereto.

12. Minimum Distance Separation from Existing Livestock Facilities:

Are there one or more livestock barns or manure storage facilities located within 750 metres of the subject land for a Type A land use* and 1,500 metres for a Type B?

Yes No

* The Ontario Ministry of Agriculture and Rural Affairs, in their MDS Implementation Guidelines states that Type A land uses are characterized by uses that have a lower density of human occupancy, habitation or activity, such as residential dwellings on lots zoned agriculture and Type B land uses are characterized by uses that have a higher density of human occupancy, habitation or activity, such as residential subdivisions or major recreational uses.

13. Acknowledgements and Affidavit or Sworn Declaration:

Owner's Authorization:

If the applicant is **not** the owner of the subject land, the owner must complete the following written authorization:

Authorization of Owner (please print):

I, _____ own the subject land and I authorize
_____ to make this application.

Date _____

Signature of Owner _____

Authorization of Owner(s) for Disclosure of Personal Information:

I, _____ own the subject land and, for the purposes of the Freedom of Information and Protection of Privacy Act, consent to the disclosure of any personal information provided in the processing of this application, under the Planning Act, to any person or public body.

Date _____

Signature of Owner(s) _____

Affidavit or Sworn Declaration of Owner(s) or Applicant:

Site Screening Questionnaire for Identifying Potentially Contaminated Development Sites in the Regional Municipality of Durham

This form must be completed for all planning applications unless two original copies and a digital copy of the applicable Environmental Site Assessment (ESA) work prepared in accordance with Ontario Regulation (O.Reg.) 153/04, as amended, is submitted to the approval authority in support of this development proposal. If you have any questions about this questionnaire, please contact the Regional Municipality of Durham as identified above.

Landowner Name: _____

Mailing Address (Street No. and Name): _____

Location of Subject Lands (Municipal Address): _____

Lot(s): _____ Concession(s): _____ Registered Plan #: _____

Former Township: _____ Municipality: _____

Related Planning Application(s) and File Number(s) _____

1. What is the current use of the property? Check the appropriate use(s):

Category 1: Industrial Commercial Community

Category 2: Residential Institutional Parkland

Category 3: Agricultural Other

Note: daycare facilities and a property that contains a religious building(s) are considered institutional uses. See Ontario Regulation 153/04, as amended, for definitions.

If Yes was selected in any of the questions above, a Phase One ESA (and possibly a Phase Two ESA) at a minimum prepared in accordance with O.Reg. 153/04, is required. Please submit two hard copies and a digital copy of the Phase One and/or a Phase Two ESA that satisfies the requirements of O.Reg 153/04, as amended.

ESA's may be waived at the Region's discretion provided that the Applicant/Qualified Person (QP) can demonstrate that the response(s) does not pose a risk to human health and the environment to the Region's satisfaction (e.g. consent applications relating to easements, leases, mortgages, correction of title as well as location of off-site Potentially Contaminated Activities; and direction of surface and groundwater flow etc.).

The Region must be granted third party reliance on all ESA work through the completion of its Reliance Letter and Certificate of Insurance. Regional third-party reliance is not required if a Record of Site Condition is filed on the Environmental Site Registry for the proposed property use and/or the Ministry of the Environment, Conservation and Parks (MECP) issues a notice of a Certificate of Property Use where applicable.

Note: The Region may scope the Environmental Site Assessment requirements for minor development proposals on Enhanced Investigation Properties (e.g. accessory structures) or determine if additional environmental work is required.

Declarations:

This form must be completed and signed by both a Qualified Person and the property Owner(s) or Authorized Agent for all development applications made under the Planning Act and reviewed by the Region of Durham Planning Department.

A QP sign-off may be waived by the Region for the following Land Division Committee application types: leases; mortgages; title corrections; re-establishment of lot lines (where title inadvertently merged); minor lot line adjustments (at the discretion of the Region); as well as minor variances; minor zoning by-law amendments (e.g. where there is no physical development, the addition of a new non-sensitive land use), and/or part lot control applications where site contamination was recently addressed by a related planning application. For a full list of QP exemptions, please see the Regional Municipality of Durham's Soil and Groundwater Assessment Protocol.

Where a QP sign-off is required on this form, the completion of a Regional Reliance Letter and Certificate of Insurance may be waived.

To the best of my knowledge, the information provided in this questionnaire is true, and I do not have any reason to believe that the subject property contains contaminants at a level that would interfere with the proposed property use. I am a Qualified Person in accordance with Ontario Regulation 153/04 and carry the required liability insurance in accordance with the Regional Municipality of Durham's Soil and Groundwater Assessment Protocol.
