

# **Request for Pre-Consultation Guide & Application**

## Pre-Consultation Guide & Application

Pre-consultation is required prior to submitting application(s) for an Official Plan Amendment, Zoning By-law Amendment and/or Site Plan Approval to the Township. Pre-consultation is also required prior to submitting application(s) for a Draft Plan of Subdivision and Draft Plan of Condominium, but these are coordinated through Durham Region's Planning & Economic Development Department. Pre-consultation may also be required for Part Lot Control, Land Division, Minor Variances and Second Dwelling Applications at the discretion of the Planning Division.

Pre-consultation allows the applicant and/or their authorized representatives to present and outline the development proposal with relevant staff and agencies and provides staff with the opportunity to clarify the application process. Pre-consultation also allows staff and agencies to provide preliminary comments on the development proposal, identify any key issues, comment on the approvals that will be required, and confirm the supporting information/materials that must be submitted with the planning application(s) in accordance with the Township of Scugog's Official Plan policies, to be considered a complete application under the Planning Act.

### Timing and Required Information

The Township circulates pre-consultation requests to Township staff and external agencies for review and comment on a monthly basis, and pre-consultation meetings may be required for more complex applications. Requests for Pre-consultation and all required/supplementary information must be received by Township staff prior to the second Monday of the month in order to be included in the circulation for that month. Any requests received after the second Monday of the month will be included in the circulation for the following month.

Pre-consultation meetings are hosted by Township Planning staff and may include other Township staff and representatives from various external agencies, as required. Pre-consultation meetings are typically held the third (3<sup>rd</sup>) Tuesday of every month as availability permits.

After the pre-consultation meeting, Township Staff will provide the applicant and/or owner with a Pre-consultation Record. **The Record will contain a list of information and materials that will be required to process the subject application(s).** The Record of Pre-consultation may expire within 12 months of the meeting, and should this occur, re-circulation or a further meeting may be required subject to the discretion of Development Services.

### **Please note:**

1. The main intent of the Pre-Consultation meeting is to identify the requirements and materials to assist the applicant in their submission of a complete planning application.
2. The comments generated from the Pre-Consultation process do not constitute any level of approval nor does it reflect the position of the Township.
3. Pre-consultation requests are circulated on a monthly basis. The pre-consultation process can take at least 1 month depending on when a request is received.
4. Additional information may be required throughout the processing of the application in order to address specific issues and to better enable the Township to make informed decisions.

For any additional questions or concerns, please contact Township Planning: 905-985-7346.

## Request for Pre-Consultation

**Office Use Only – Date Received:**

### Owner Information

Registered Property Owner (Full Name):
